ABOUT SETTLEWELL

SETTLEWELL is a Long Beach-based Concrete Home Goods Company owned and operated by Laura Cornman. Our line is meant to make minimal and artful modernism accessible through curated design, our thoughtfully monochromatic color palate and our innovative and thought provoking use of concrete to create refined, nuanced home goods and tablewares.

MADE IN CA

All SETTLEWELL products are designed, produced and shipped out of Southern California. Our mission is to create unique and high quality modern home goods that are thoughtfully and individually hand-crafted. Pieces that elevate and inspire a sense of calm. We're about decluttering, de-stressing, and de-complicating. We're about making the most with what we have, and choosing to settle in our spaces rather than settling for our spaces.
